

The background of the entire image is a solid, bright yellow. Scattered across this background are several rainbow bagels. Each bagel is twisted into a knot and coated with a vibrant, multi-colored glaze in shades of red, orange, yellow, green, and blue. Some bagels are topped with fresh green herbs and slices of red tomato. The bagels are arranged in a way that some are partially cut off by the edges of the frame. A white rectangular border is superimposed on the image, framing the central text.

We have a taste for helping!

Around the time I was born, the late US President John F. Kennedy said: *“Some of us are extremely lucky during our lives but the luckier we are, the more responsibility we have to those people that are not lucky at all.”*

What gives me joy in my life is definitely the fact that I do not only serve you but also continuously improve the level of service quality which we deliver. Also the fact that we cooperate with organizations that follow John F. Kennedy’s views of 50 years ago and keep trying to make a better life for other people.

That is why we donate up to 50% of our profits to helping others every year. We are involved in a number of public projects, including such programmes as “LIFE – give a good start,” which is run by UNICEF to help children in Rwanda, Bhutan, India and other less developed countries in the world.

Whenever you visit any Zātiśi Group restaurant or you use Zātiśi Catering or our Fresh&Tasty service, you will always receive the highest quality and at the same time you will contribute to helping less fortunate people all over the world.

I look forward to meeting you in one of our venues. Any help, no matter how big, counts!

Sanjiv Suri
Founding President
